

ATTENTION POTENTIAL MILITIA MEMBERS

This site receives several requests a month from Nebraskans wanting to join 'our' militia. Let me set the record straight. Gman and Rudy don't have a militia. They are not in command of the state-wide militia. They have simply put together small units in their respective counties. They know how hard it is to get organized and start training. They have learned quite a bit during their early attempts. They realize that the militia must grow if it is to become effective again as originally intended in the Constitution. It is for this reason that they are willing to help others start units.

Rudy found a member that is donating the use of the family ranch for training purposes. That was a huge hurdle. Rudy has donated equipment, ammunition, and BDU's to a unit. Nebraskadad is maintaining the original site and is footing the bill for it. Gman stepped forward and is footing the bill for a couple of other sites. Both Rudy and Gman have purchased extra equipment that they keep for loaners to get new people started.

If you are interested in joining a militia unit, we'll gladly put you in touch with others that have already contacted us¹. If you are the first from your county or area, then it's up to you to start a unit, if you're truly serious about it.

We'll help out as much as possible by directing other contacts to you. We'll send you some training material that we are using. We'll answer your questions. We'll seek out the right people that can answer them if we can't. We are here to help, but you have got to want to help yourselves.

Keep us informed of your progress. There is nothing that we'd like to see more than to have all 93 counties listed on the website as having active units. We are willing to post pictures of your training if provided.
